TENDER THIS

LIVE BOOTCAMP

SUPPLY & DELIVERY — LIVE SUBMISSION

30 & 31 July 2026

9:00 AM

Electron Exchange, Isando

Only 10 seats available — this group is intentionally small

[Secure My Seat →](#)

Early bird: R4,635 · Standard: R5,665 · Payment plans available

Most tender submissions fail before they're ever read. Wrong documents. Expired certificates. Pricing that can't withstand scrutiny. Non-responsive line items. These aren't bad luck — they're preventable gaps that nobody walked you through closing.

You've probably sat through a tender workshop before. You took notes, got the workbook, went home — and then stared at the actual tender document with no idea how to respond to each line correctly. The theory made sense. The doing didn't happen.

Most training gives you a framework and sends you home to figure out the rest. Nobody sits with you through the actual tender document, line by line, and makes sure you know exactly what to write — and why.

Tender This is built differently. You arrive with your compliance documents and the tender you want to apply for. We provide the specialist guidance, the live working framework, and the hands-on support to get that tender completed and submission-ready — right there in the room, over two full days.

WHAT IS THIS?

You don't just learn how to tender. You actually complete one.

This is a two-day, hands-on live submission bootcamp. Not a lecture series. Not a slide deck course. A working room where you arrive with your compliance documents and the tender you want to apply for — and spend two full days completing it correctly, with specialist facilitation and 1-on-1 support at every step.

1

DAY 1 — MORNING

Document audit & compliance verification

Before we touch anything, we check what you've brought. CIPC registration, tax clearance, B-BBEE certificate, UIF, COIDA, bank confirmation letter — every mandatory document is reviewed so gaps are identified and addressed before you write a single word on your tender.

2

DAY 1 — AFTERNOON

Understanding your tender

We unpack the supply & delivery tender you've brought, together. Scope of work, evaluation criteria, mandatory requirements, pricing schedules — we go through exactly what the adjudication committee will be scoring you on, and what a winning response looks like for each section.

3

DAY 2 — MORNING

Live completion with 1-on-1 support

You complete your tender document in the room. Your facilitator moves between participants throughout the session — every question gets answered, every section gets reviewed before you move on. Nobody gets left behind with a half-finished document.

4

DAY 2 — AFTERNOON

Pricing strategy & final submission review

Pricing is where most SMMEs lose on paper even when their documents are perfect. We work through a strategic pricing approach specific to your tender, then conduct a final document review. You walk out with a completed, submission-ready tender document.

WHY THIS IS DIFFERENT

**Other training teaches.
We execute.**

WHAT YOU'RE COMPARING	TYPICAL TENDER TRAINING	TENDER THIS BOOTCAMP
Format	✗ Theory, slides & workbooks	✓ Live tender document, live room
What you leave with	✗ Notes and a template	✓ Your completed submission document
Facilitator	✗ Trainer who teaches tenders	✓ Specialist who submits tenders daily
Group size	✗ 30–50 people, no 1-on-1 time	✓ Maximum 10 — full facilitator access
Compliance check	✗ Not included — assumed you're ready	✓ Document audit built into Day 1
Industry focus	✗ Generic across all tender categories	✓ Supply & delivery only — no mixed categories

WHAT YOU'RE COMPARING	TYPICAL TENDER TRAINING	TENDER THIS BOOTCAMP
Pricing guidance	✗ Basic overview, you figure out the rest	✓ Strategic pricing worked through with your tender

There is no other training in South Africa that works through your actual tender document with you, line by line, in a live room. Every other offering gives you the knowledge and sends you home to do the hard part alone. Tender This is the hard part — done together.

YOUR FACILITATOR

Taught by someone who does this for a living — every single day.

This bootcamp is facilitated by the Fortsiphi team — not trainers who once worked in procurement, and not consultants who read the theory. These are active compliance and tender execution specialists who prepare, structure, and submit tenders on behalf of SMMEs and corporates across South Africa as their primary business. Right now. This week. For real clients with real deadlines.

Fortsiphi (Pty) Ltd — Facilitation Team COMPLIANCE & TENDER EXECUTION SPECIALISTS

Fortsiphi has spent years working inside South African public procurement — not studying it from the outside, but actively doing the work. The team prepares and submits live tender documents for clients across multiple industries on an ongoing basis. **That is their core business.** Not training as a side offering. Not a course someone built from a past career. Daily, active, current tender execution work.

What that means for you in the room is straightforward: when you hit a wall on a section, your facilitator has seen that exact wall before — on a real tender, for a real client, with a real submission deadline. The answer you get is not from a textbook. It comes from experience.

Fortsiphi also holds every compliance credential they will walk you through on Day 1. **They don't teach compliance. They maintain it themselves, every year, to stay in business.**

That's the level of authority standing in this room with you.

 **NCCA Registered**

 **ISSA Registered**

 **B-BBEE Compliant**

 **Tax Compliant**

 **CIPC Registered**

 **PAYE & UIF Compliant**

 **COIDA Compliant**

“When you ask a question at Tender This, you’re getting an answer from someone who dealt with that same situation on an actual submission — not a scenario from a case study. That’s the difference between theory and execution.”

— Fortsiphi (Pty) Ltd

WHY FORTSIPHI

They’re not teaching what they read. They’re teaching what they do.

There are plenty of people who can explain how tenders work. Very few of them are actively submitting tenders for clients across South Africa right now, this week, against live deadlines. Fortsiphi does this as their core business — which means every insight, every shortcut, and every warning you hear in that room on 30 July is current, tested, and earned on real submissions.

Active tender practitioners

Fortsiphi prepares and submits live tenders on behalf of clients as their primary business — not as a training side project. The knowledge in this room is built on current, active submissions, not past experience.

Full regulatory compliance — maintained annually

PAYE, UIF, COIDA, B-BBEE, tax, NCCA, and ISSA — Fortsiphi holds and renews every credential they will walk you through on Day 1. They teach compliance from the inside, not from a checklist.

From Compliance to Contract — the full journey

Fortsiphi's positioning isn't a tagline. They cover the full procurement journey — from getting your business documents in order, all the way through tender execution and contract award. That's exactly the journey this bootcamp follows.

Built for SMMEs — not corporate procurement teams

Large corporates have full procurement departments. You don't. Fortsiphi specialises in the specific challenges SMMEs face in the South African public tender space — limited resources, compliance gaps, and no insider knowledge of what panels actually look for.

FORTSIPHI COMPLIANCE CREDENTIALS — WE HOLD WHAT WE TEACH

✓ PAYE Compliant

✓ UIF Compliant

✓ COIDA Compliant

✓ Tax Compliant

✓ B-BBEE Compliant

✓ NCCA Registered

✓ ISSA Registered

✓ CIPC Registered

Why does this matter to you? *Because the person reviewing your compliance documents on Day 1 maintains all of these themselves. There is no guesswork about what "compliant" actually looks like.*

WHO IS THIS FOR?

**If tenders have cost you time,
money, or confidence — read this.**

Tender This is designed for business owners at any stage of their tender journey. What matters is that you arrive ready to work — documents in hand, committed to two full days, and serious about walking out with a submission-ready document.

You keep getting disqualified and don't know why

Technical disqualifications — missing documents, wrong formats, expired certificates — are costing you contracts you should be winning. The Day 1 document audit will identify every gap before you write a single word.

You're entering the tender space for the first time

You don't know what you don't know yet. Rather than waste a real submission — and real time — finding out, use this bootcamp to build your first tender document correctly, with expert eyes on every section.

You're compliant but can't put it all together

Your certificates are in order, your company is registered, you know you qualify — but translating all of that into a coherent, winning submission document feels overwhelming. That's exactly where this bootcamp lives.

You operate in supply & delivery and want to go after tenders

This bootcamp is focused on one industry only. No mixed categories, no generic content that doesn't apply to your business. Every example, every pricing discussion, and every submission strategy is specific to supply & delivery tenders.

This is not for everyone.

If your business is not yet registered or your compliance documents are not in order, you will need to sort those before attending. A pre-event compliance checklist is sent to every registered participant after booking so you can confirm your readiness before the day — no surprises when you arrive.

COME PREPARED

What to bring on the day

This is a working bootcamp. The more prepared you arrive, the more you leave with. Every document below is mandatory for a supply & delivery tender submission — which means if any are missing, you cannot complete your tender in the room. Check the list. Sort it before 30 July.

CIPC Company Registration Documents

Valid Tax Clearance Certificate (SARS)

B-BBEE Certificate or Affidavit

Company Bank Confirmation Letter

UIF Registration Certificate

COIDA / Letter of Good Standing

The Tender You Are Applying For

Laptop or Device to Work From

Your submission readiness

100% ready

Not sure if your documents are in order?

A full pre-event compliance checklist is emailed to every registered participant immediately after booking. Work through it before 30 July and you'll arrive confident, not scrambling.
